

## State Specific Disclosures

This section applies to the extent applicable based on applicable privacy laws in your jurisdiction.

### Consumer Rights Requests Metrics

The CCPA requires businesses to track and publish request metrics. During the previous calendar year, deleteme.com received the following number of verified requests:

	Received	Complied with (in Whole or in Part)	Denied	Mean Number of Days to Respond
<b>Requests to Know (CA Residents)</b>	71	71	0	< 1 day
<b>Requests to Opt Out / Delete* (CA Residents)</b>	3,367	3,367	0	< 1 day
<b>Requests to Correct (CA Residents)</b>	190	190	0	< 1 day
<b>Requests to Know (Location Unknown)**</b>	419	419	0	< 1 day
<b>Requests to Opt Out / Delete (Location Unknown)**</b>	20,321	20,321	0	< 1 day
<b>Requests to Correct (Location Unknown)**</b>	2,056	2,056	0	< 1 day

\* deleteme.com processes both opt-out and deletion requests similarly by removing the consumer's personal information from our database.

\*\* For each category, we have included a subcategory with "Location unknown," which covers the scenario in which we received a request but were unable to determine the location of the requestor.
